-Obedience Level 2

\$900 [Detail](#) [Add](#)

The Level 2 Puppy Package will effectively teach you how to train your puppy to do the following behaviors:

- *Sit
- * Lie Down
- * Recall (to come when called)
- * Stay
- * Leash Walking

* **Leave It**

* **Drop**

* **Attention and Focus Behaviors**

* **Lie Down and Settle in Distracting Environments** **Example:** to bring your dog to a dog friendly café, brewery, restaurant, etc. and the dog is to lie down and settle next to you.

All while focusing on distance, duration, and distractions!

We want to work on distance because your puppy won't always be right at your side, sometimes your dog will be further away and he/ she needs to be able to respond to cues while at a distance.

-Obedience Level 3 (Advanced)

\$1300 [Detail](#) [Add](#)

Our level 3 program consists of all of the level 2 and 3 program but with much more advanced off leash training such as off leash heel(sport dog attention heel for example), walking with your dog and saying "down" and he/she does so as soon as the handler says, sit command from a far distance, come when called from a distance and recall. Of course we combine all of the advanced obedience training around distractions. Our level 3 program is 4-5 weeks long and comes with a 2 hour go home lesson to go over the training and follow up lessons to keep up with the training

-Therapy Dog Training

\$1700 [Detail](#) [Add](#)

Therapy Dogs need to be prepared for all kinds of distractions, able to respond with calm grace and environmental stability.

In other words – they need to maintain composure and a good sense of humor when, for instance, they are draped in flowing orange Hawaiian leis!

While leis aren't necessarily the most common item you'd find in hospitals or nursing homes – some of the locales where Therapy Dogs are so much in need – there you will

find I.V. tubes, rattling wheelchairs and gurneys, cascades of cords from various medical apparatus, and so many other foreign objects.

-Service Dog Training

\$2100 [Detail](#) [Add](#)

Along with teaching dogs to assist the disabled in certain functions, trainers familiarize dogs with human interaction and teach basic obedience skills, such as walking in pace with handlers and sitting on command. The training process is comprised of many small tasks, each with instruction techniques. For example, some trainers may use the bridge technique, which involves rewarding dogs every time they perform certain actions. Trainers also provide dogs with physical and mental exercise during the training process. After training is complete, they match dogs with their owners and teach the two to work together.

Agility Dog Training:

\$1700 [Detail](#) [Add](#)

Agility is one of the fastest-growing dog sports in the country—and for good reason. It's incredible exercise for both you and your dog, and it forges an even deeper relationship between you. Plus, it's exhilarating to watch as your dog nimbly and quickly crawls through tunnels, weaves around poles, and leaps through tires!

Hunting Dog Training:

Training a hunting dog should be fun process for both puppy and owner.

Relax, be consistent, and speak softly. Years of fun are in your future.
